

## In the Morning

I think it's time to make a new start  
Time to learn what this life is about  
In the morning

I know my past had plenty of flaws  
Can't rewind but at least I can pause  
In the morning  
In the morning

My time is just on loan  
But I'll find out what I own  
In the morning  
In the morning

Go try to figure it out  
What I believe and what I doubt  
Place myself on the right route...

It might be time to make some fresh plans  
Time to find out where I stand  
In the morning

It's all about how you begin  
Find out if you'll sink or swim  
In the morning  
In the morning

I'm alive but only in part  
Never paid attention to the start  
In the morning  
In the morning

We've got some time, but only a bit  
Comes down to what you do with it  
Hoping I can find the right fit...

- Piano solo -

We're moving faster but not going far  
Might be something wrong with this car  
In the morning

Take the time to know who you are  
Find out if there's a core to this star  
In the morning  
In the morning

We'll travel down the road no doubt  
Not sure if we're in or we're out  
In the morning  
In the morning

Go try to figure it out  
What you believe and what you doubt  
Put yourself on the right route...

Outro.

End
