

## The Storm

Golden day,  
Takes cares away,  
But shaft of light,  
Pierces night, then the storm

In the storm

Oh in the storm

In the storm

Mmm in the storm

No comfort, no warmth

Mmm in the storm

Solace spent,

Emotions rent,

Through skies of blue,

Come home to you, then the storm

In the storm

Oh in the storm

In the storm

No comfort, no warmth

In the storm

Mmm in the storm

We gather up,

Our shattered cup,

And drink a toast,

To unknown host, then the storm

In the storm

Oh in the storm

In the storm

Mmm in the storm

No comfort, no warmth

Mmm in the storm

## Bridge:

Carried through

From me to you

Fraught with care

Intentions bare

Out of sight

Till break of light

We take our place,

In time and space,

And raise the dead,

With feet of lead, then the storm...

In the storm

Oh in the storm

In the storm

Mmm in the storm

No comfort, no warmth

In the storm

Mmm in the storm
