

## The Tide

Thinking 'bout you darling,  
Thinking 'bout you now  
Struggling through the day,  
Make it through somehow

Thinking 'bout you darling,  
Every single day  
Can't do a thing about it,  
Just turns out that way

And I can't keep it inside  
No I wouldn't want to hide  
You pull me like the tide

All the little things,  
That we've been through  
All my longest journeys,  
Lead me back to you

Turn me 'round in circles,  
Send me back around  
Like a circus ride,  
That just rolled into town

And I can't keep it inside  
No I wouldn't want to hide  
You pull me like the tide

Interlude

If I go down the road,  
If I go 'round the bend  
There's no doubt about,  
Who'll bring me back again

You and me forever,  
The way it's gotta be  
Any other answer,  
Don't make sense to me

And I can't keep it inside  
No I wouldn't want to hide  
You pull me like the tide
